Work Experience

DATES	January 2014 to January 2016
COMPANY	IVORY Worldwide Limited
POSITION	Digital Developer
RESPONSIBILITIES	In my role as a digital developer I have worked with our clients to define technical specifications for our digital projects and developing solutions in PHP. I was also responsible for maintaining and building WordPress themes for our clients and production team. These themes were used across all of our event microsite's.

Curriculum vitae

DATES October 2008 to December 2013
COMPANY The Digi Deli Ltd.
ROLE Web Developer
RESPONSIBILITIES Working for a small agency I was involved with all parts of a project lifecycle, from pitch to launch. This helped me gain a good understanding of agency life. As the only web developer for the company I was in charge of all technical aspects of each project and advising on the best technologies to use.

I was responsible for the development of a web application for The Thames Learning Group, which is a listing of 100 educational sites along the Thames. The web app was built using the PHP framework Codeigniter and as part of this I built a search function using the Haversine formula to return the nearest results by distance.
